

**POLICY ON MAINTAINING HYGIENE AND
POLLUTION FREE ENVIRONMENT**

DAV UNIVERSITY JALANDHAR

Preface

At DAV University, we hold a steadfast commitment to fostering a vibrant and supportive community where all members thrive. We recognize that the physical environment plays a crucial role in shaping the experiences of our students, staff, faculty, and visitors. A clean, hygienic, and pollution-free campus is not just a reflection of our values but also a fundamental requirement for promoting health, safety, and well-being.

This policy represents a collective endeavor to uphold these values and create an environment that nurtures the holistic development of every individual within our community. It serves as a guiding framework that articulates our expectations and responsibilities in maintaining cleanliness, hygiene, and environmental sustainability across the university campus.

Cleanliness and hygiene are essential components of a healthy living and working environment. By ensuring that our facilities are well-maintained, restrooms are stocked with necessary supplies, and waste disposal systems are efficient, we prioritize the health and safety of everyone on campus. Moreover, a clean environment fosters a sense of pride and belonging among community members, contributing to a positive campus culture.

Our commitment to pollution control extends beyond our immediate campus to our broader impact on the environment. Through initiatives such as waste segregation, recycling programs, and promoting sustainable transportation options, we aim to minimize our ecological footprint and contribute to the preservation of natural resources for future generations.

As members of the DAV community, we all share in the responsibility of maintaining the integrity of our campus environment. By embracing these principles and actively participating in their implementation, we not only enhance the quality of life for ourselves but also demonstrate our dedication to being responsible stewards of the environment.

Together, let us embody the values of cleanliness, hygiene, and environmental stewardship that define our university community. Through our collective efforts, we can create a campus environment that promotes health, safety, and sustainability for all.

1. Introduction

DAV University is committed to fostering a clean, hygienic, and pollution-free environment for all its stakeholders, including staff members, students, and visitors. This policy aims to establish guidelines and expectations to ensure the maintenance of personal hygiene, cleanliness across the campus, and the reduction of pollution to promote a healthy and sustainable environment.

2. Campus Hygiene

2.1. All stakeholders, including staff members, students, and visitors, are responsible for contributing to the cleanliness and hygiene of the university campus. This includes academic blocks, administrative block, hostels, student center, and surrounding areas.

2.2. Adequate facilities such as restrooms, handwashing stations, and waste bins will be provided throughout the campus to promote good hygiene practices. Regular cleaning schedules will be established for these facilities to ensure cleanliness and availability at all times.

2.3. Stakeholders are encouraged to practice personal hygiene and cleanliness in their respective areas, ensuring that desks, workstations, common areas, and living spaces are kept tidy and free of clutter.

2.4. Littering anywhere on the campus premises is strictly prohibited. Stakeholders are expected to dispose of waste properly in designated waste bins.

2.5. Separate dustbins for biodegradable, non-biodegradable, and plastic waste will be provided across the campus. Stakeholders are required to segregate their waste accordingly to facilitate proper recycling and disposal.

2.6. Recycling initiatives will be promoted within the campus, and stakeholders are encouraged to participate actively in waste reduction and recycling efforts.

2.7. Any instances of littering or improper waste disposal will be considered a violation of campus hygiene standards and may be subject to disciplinary action as per university policies.

3. Pollution Control

3.1. DAV University is committed to minimizing pollution and reducing its environmental impact. Stakeholders are expected to support these efforts by adopting environmentally friendly practices and minimizing waste generation.

3.2. Measures will be implemented to reduce air and noise pollution on campus. This includes restricting the entry of vehicles into the university campus, with all stakeholders required to park their vehicles in designated parking areas only. Additionally, measures such as the use of energy-efficient technologies, proper maintenance of vehicles and equipment, and adherence to designated smoking areas and noise regulations will be enforced.

3.3. Stakeholders are encouraged to use sustainable transportation options such as walking, cycling, or using electric vehicles within the campus premises to reduce carbon emissions and promote a cleaner environment.

4. Compliance and Enforcement

4.1. Compliance with this policy is mandatory for all stakeholders of DAV University.

4.2. Managers, faculty members, and student representatives are responsible for ensuring that stakeholders are aware of and comply with the provisions of this policy.

4.3. Violations of this policy may result in disciplinary action, up to and including suspension or expulsion for students, depending on the severity and frequency of the offense.

5. Training and Awareness

5.1. DAV University will provide training and awareness programs to educate stakeholders about the importance of campus hygiene and pollution control and to promote compliance with this policy.

5.2. Regular communication channels such as newsletters, posters, and workshops will be used to reinforce key messages and encourage stakeholder participation in maintaining a clean and pollution-free campus environment.

6. Review and Revision

6.1. This policy will be reviewed periodically to ensure its effectiveness and relevance to changing circumstances and regulatory requirements.

6.2. Amendments or revisions to this policy may be made as necessary, with input from stakeholders and relevant stakeholders.

7. Conclusion

DAV University is committed to providing a safe, clean, and hygienic environment for all its stakeholders. By adhering to the guidelines outlined in this policy, we can create a campus environment that promotes health, well-being, and sustainability for everyone.
